

CAPABILITY STATEMENT

Solidification Products International, Inc.

COMPANY OVERVIEW

Solidification Products International Inc. (SPI) is a US manufacturer of Patented Oil-Spill Prevention products and Containment Systems. SPI is a veteran owned company that has been providing products for utilities, military, municipal and industrial projects around the world for over 30 years. Through customization, SPI is equipped to assist project managers and engineers with new projects as well as Retrofit Oil Containment Systems. From an EPA perspective, SPIs manufactured product solutions are designed to allow rainwater to drain while preventing hydrocarbons from releasing into the environment. Visit: www.oilbarriers.com for more information.
